

APPENDIX IV—MANEUVERING CLEARANCE AT DOORS AND GATES

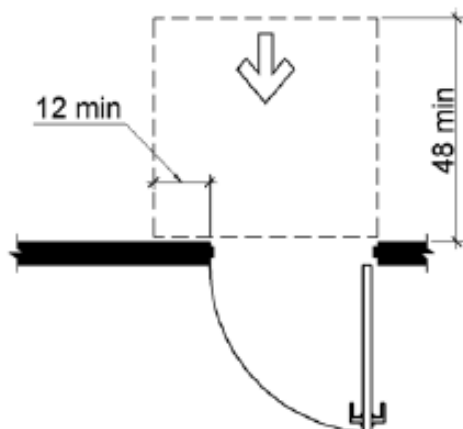

These figures show the clear floor space required to allow a person using a wheelchair or scooter sufficient maneuvering room to pull the door open and then enter. The size of the clear floor space varies depending on the direction of approach (shown by the arrows) and the door swing.

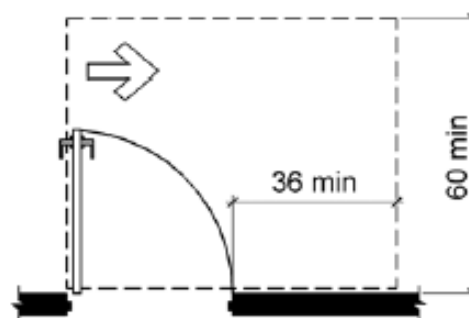

(a)
front approach, pull side

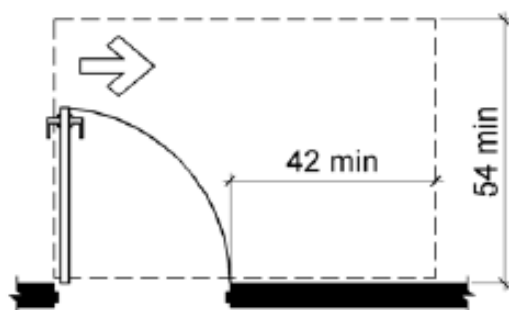

(b)
front approach, push side

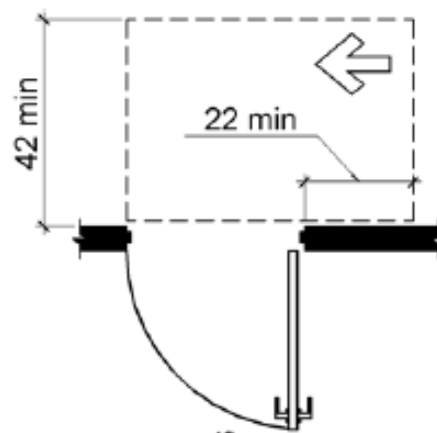

(c)
front approach, push side, door
provided with both closer and latch

(d)
hinge approach, pull side

(e)
hinge approach, pull side

(f)
hinge approach, push side
